AQUAGLIDE, THE REFERENCE BRAND FOR INFLATABLE AQUATIC COURSES

WORLD
LEADER

SAFETY AND
WARRANTY

UNLIMITED
MODULARITY

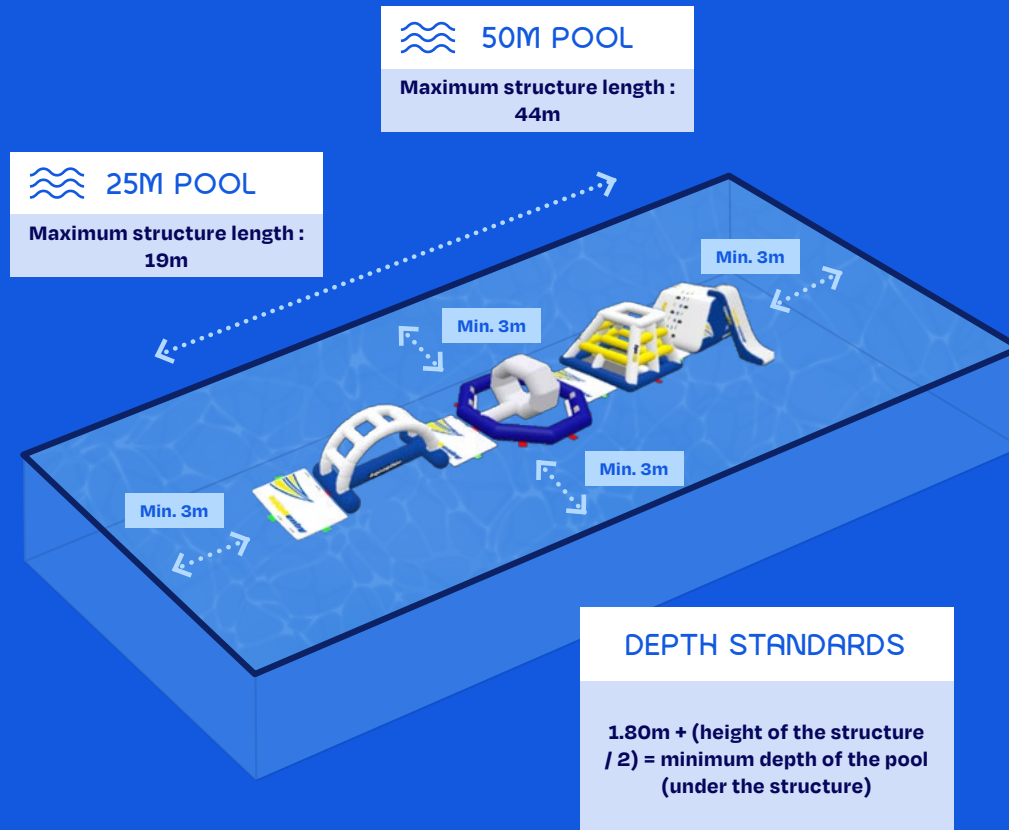

INNOVATION AND
AVANT-GARDISME

World leader for over 40 years, AQUAGLIDE designs equipment that combines safety, modularity, and innovation. All our modules comply with the most stringent standards and come with a 3-year warranty, ensuring reliability and peace of mind. Thanks to nearly limitless modularity and a forward-thinking spirit, we push the boundaries of creativity to deliver ever more efficient and tailored solutions to meet your needs.

Aquaglide
by **BOAZ**

SAFETY AND STANDARDS

THE ADVANTAGES OF AQUAGLIDE

Accessibility: Our products allow participants to get back on the course at any time, no matter where they fall into the water.

Additional safety: All Aquaglide products feature a patented strap attachment system, eliminating the use of Velcro fasteners.

Advantages:

- 100% resistance to chlorine
- No risk of users getting scratched, unlike Velcro
- Easy installation: the straps remain in place on deflated structures, eliminating the need for lifeguards to go into the water

OPTIMAL COMPLIANCE

To meet the strictest requirements of current regulations, BOAZ provides you with the following for each module :

- **The ISO 25649-1 Certificate of Authenticity**
- **A technical data sheet**
- **The user manual**

All modules are also equipped with a label outlining the safety rules to be followed.

BOAZ CONCEPT

OVER 25 YEARS OF EXPERTISE

For over 25 years, **BOAZ Concept** has been the leading partner in Europe for the purchase and rental of aquatic leisure equipment.

Backed by our expertise and high standards, we design reliable, high-performing, and durable installations. **More than 200 clients trust us** for tailored support, from feasibility to profitability, with rigorous follow-up and comprehensive services including repairs, storage, and reinstallation.

Always driven by innovation, we develop patented solutions such as the **XTower** and **BOAZ Create**, our 3D modeling tool. Make your project a success with **BOAZ Concept**.

INNOVATION

HOW TO CREATE YOUR OWN TRACK?

I SELECT :

- 1 A liaison module or onboarding
- 2 A 3m or 6m module
- 3 A liaison module
- 4 A 3m or 6m module
- 5 A liaison module
- 6 An end-of-course module: a simple slide or one with apparatus

Composition
25m course

=

MODULES
3M TO 6M

+

3

LIAISONS

Safety Reminder

For a 25m pool, the course will measure a maximum of 19m.

THE ADVANTAGES OF AQUAGLIDE

The modules also connect perpendicularly : **one module, two possibilities !**

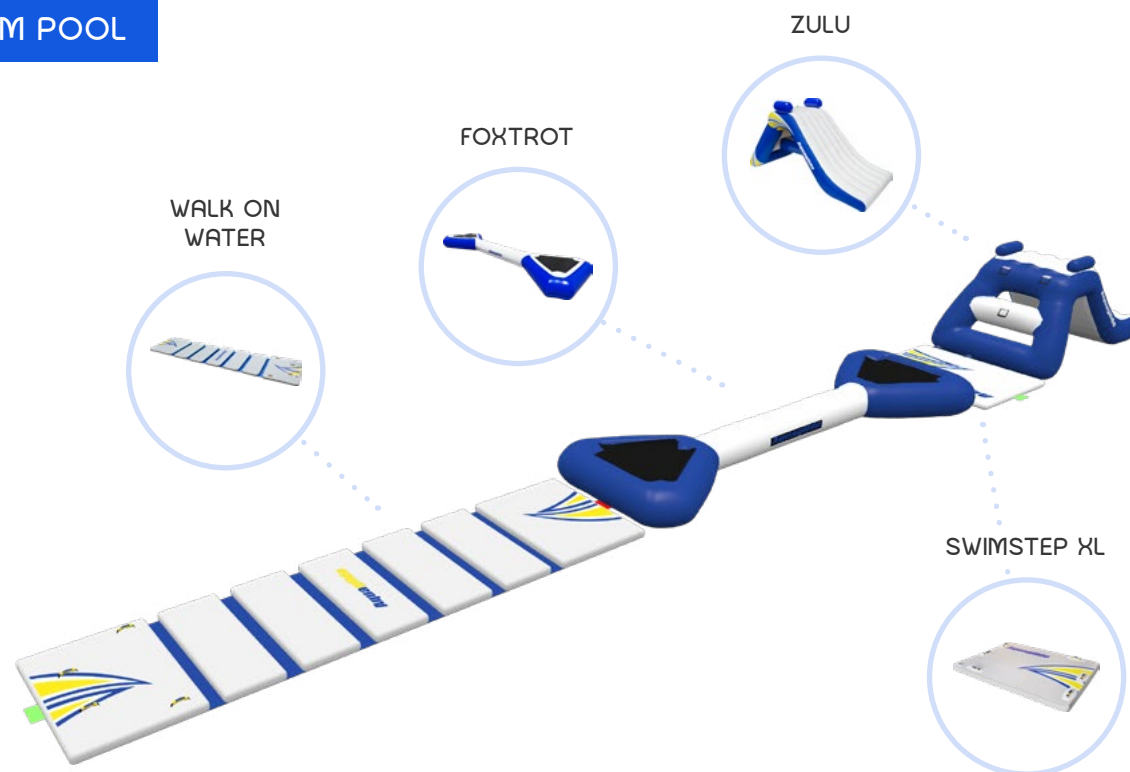

The background image shows an indoor swimming pool with a high ceiling and tiered seating. Several people are using Aquaglide water slides and rafts. One person is standing on a raft in the foreground, while others are on slides in the background. The water is blue and rippling.

OUR TRACKS

Aquaglide
by BOAZ

SHALLOW WATER TRACK 1

25M POOL

Features :

-  **Dimensions:** 17.5mx 2m
-  **Recommended capacity:** 15 users
Maximum capacity: 17 users
-  **Required depth:** from 1.20m to 1.70m

+ **Safety pack option:**
Elastic ropes x4: **220€** excl. TAX
Inflator: **from 98€ to 352€** excl. TAX

AQUAGLIDE OPTIMIZES THE DAILY WORK OF LIFEGUARDS.

Aquaglide's perforated structures help significantly reduce the weight of the module.

Assembly and inflation time of a maximum of 1 hour, thanks to Aquaglide's tubular technology, which significantly reduces the inflation volume and thus the time required.

The storage volume is ultra-limited thanks to Aquaglide's innovative manufacturing technology.

Safety through nets: Aquaglide products are the only ones to offer safety nets in perforated structures.

No need to go into the water to set up the course thanks to our patented strap system.
